37 CFR Parts 1 and 5
[Docket No. 40227-18]
Revision of Foreign Filing License Procedure

Agency: Patent and Trademark Office, Commerce

Action: Final rule: Change of effective date

Summary: The Patent and Trademark Office amended the rules of practice in patent cases, Parts 1 and 5 of 37 CFR, to establish a streamlined procedure for granting licenses for foreign filing by publishing a notice in the Federal Register on Apr. 4, 1984, at 49 Fed. Reg. 13456–

13463. The notice set an effective date of June 1, 1984. However, title 35, United States Code, section 41(g) provides that "No fee established by the Commissioner under this section will take effect prior to sixty days following notice in the Federal Register." Since these rules establish fees and the effective date of the rules was slightly less than 60 days after the publication of the final rule change in the Federal Register, it is necessary to set a later effective date.

Date: The effective date of the rule change published at 49 Fed. Reg. 13456–13463 is changed to June 4, 1984.

For further information contact: Kenneth L. Cage by telephone at (703) 557-2877 or by mail marked to his attention and addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

USTA Publication of Looseleaf Rules of Practice

The United States Trademark Association has published *US Trademark Law: Rules of Practice, Forms and Federal Statutes.* The book, in looseleaf format to allow for supplements, includes the trademark Rules of Practice, sample forms, the Lanham Act and applicable provisions and cites of other statutes that deal with trademarks and the Patent and Trademark Office. In content and format, the USTA publication generally replaces the Government Printing Office looseleaf edition of the Rules of Practice which has been discontinued.

Information on ordering copies of *US Trademark Law: Rules of Practice, Forms and Federal Statutes* may be obtained from:

The United States Trademark Association
6 East 45th Street
New York, N.Y. 10017
(212) 986-5880

The Government Printing Office continues to publish the Rules of Practice as Title 37, Code of Federal Regulations, every July. Effective July 1, 1983, however, the CFR edition no longer includes forms.

IMPROVEMENTS TO SERVICES

- *Microfilming of Patented File Histories* —We have awarded a contract for the microfilming of patented file histories. By June, new issues should be available in microfiche format for viewing and copy production on issue day. Specific notice of availability will be placed in the Patent Public Search Room. During the summer, we will begin microfilming the backfile of patented files starting with the most recently issued files. By the end of this calendar year, we plan to have all 1984 issues on microfiche.

This is a major step in improving the file integrity of the individual file wrapper contents, as well as the completeness of the entire collection. Also, orders for files which are on microfiche can be filled more promptly. As we continue to have more files on microfilm, we will have more room for the paper file histories which are now at the Federal Records Center in Suitland, Maryland.

- *Public Newsline* —As an added service to the public, we have place an electronic bulletin board in the Patent Public Search Room. Through the use of video terminals, members of the public can obtain current information under the following headings.

1. Public Information Contacts and Services
2. Locations of Patents by Classification
3. Automated Search Room Tools
4. Status of PTO Services
5. News Items

Additional suggestions of items to be added may be submitted to the manager of the Search Room, Bernard Thomas.

- *Patent and Trademark Copy Sales* —In June, a new service contractor for patent and trademark copy sales will replace the current contractor, MACRO. While we will try to minimize disruptions in services during the transition period, your understanding of temporary disruptions to service would be appreciated.

One of the new services to be provided by the new contractor will be SPECIAL ORDERS that will be filled in 1 day. This special service will cost $2.00 per copy. A specific notice will be published when this service is available.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries, receive current issues of U.S. Patents and maintain collections of earlier issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections are open to public use and each of the Patent Depository Libraries, in addition, offers the publications of the U.S. Patent Classification System (e.g. The Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions, etc.) and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. With one exception, as noted in the table following, the collections are organized in patent number sequence.

Facilities for making paper copies from either microfilm in reader-printers or from the bound volumes in paper-to-paper copies are generally provided for a fee.

Owing to variations in the scope of patent collections among the Patent Depository Libraries and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours, so as to avert possible inconvenience.
